We are seeking 1 full-time cardiology intern to join our cardiology referral team. One position will be available in November/December 2026. This is an 18-month cardiology internship programme and you should have completed a small animal rotating internship programme or have 1-2 years' experience. You will work under the direct supervision of an experienced RCVS Specialist in Cardiology supported by 3 other cardiology clinicians (Certificate level), a cardiology intern and experienced nurses. This post will be particularly suitable for those wishing to pursue a Cardiology Residency; we have an excellent track record.

Situated in Northwich, between Manchester and Liverpool, is the home of Cheshire Cardiology. This will be a hybrid role and in part be ambulatory therefore a UK driving licence is preferred. If you'd like to learn in a positive team, be supported in conducting clinical research and publishing articles, see lots of interesting cases in our beautiful premises, then send in your application. Informal enquiries to Dr Alastair Hill (al@cheshirecardiology.com).

Applicants must hold a veterinary degree, be registered as members of the Royal College of Veterinary Surgeons and have the right to work in the UK. The successful candidate must be highly motivated, work well within a team, have good communication skills and have enthusiasm for cardiology and providing patients with a high standard of care. Overnight care of inpatients will also be part of the duties (overnight accommodation will be provided when this is required).
Salary £34,000.
Holiday allowance 28 days. CPD allowance, RCVS fees and VCS membership.
